Gordon

The Gordon Sofa is a shelter design that is styled with an arm that has a slight interior taper, which makes it perfect for lounging. Depending on the overall length, the cushioning can be modified with two back cushions for smaller sofas and three or four for longer designs. Supported by a blind tufted bench cushion that is exceptional for keeping structure while maintaining the ultimate level of seating comfort without the hardness of tuft buttons.

98" length | 36" depth

19" seat height | 23" seat depth

29" arm height | 7" arm width

34" back height | 2" leg

Fabric Notes

Pierre Frey has fabulous collections of high pile silk and cotton velvets with an exceptional range of colors.
