## Driggs

The Driggs slender track arm design is perfect for tight spaces where maximizing seat space is key. Keeping the same proportion of leg height, front board and cushion thickness creates a balanced modern design. This piece can be softened with warm wooden legs as opposed to the brushed stainless shown here. A versatile design that looks excellent with a number of cushion combinations.

84" length | 36" depth

18" seat height | 22" seat depth

25" arm height | 4" arm width

34" back height | 6" leg

### Fabric Notes

*Shown in an abstract textured silk weave by Coraggio that marries durability with a soft hand.*
