## Newby

Our Classic Sofa presentation of a refined, modern take on Jean-Michel Frank's iconic minimalist sofa design. Shown here as a tight back with loose seat cushions that offer a comfortable solution that never looks sloppy. The tight back allows you to reduce the overall depth significantly so the compact frame is perfect for smaller spaces. When space is not an issue and comfort is paramount, this design can also be made with pure down feather loose back cushions.

72" length | 36" depth

18" seat height | 23" seat depth

25" arm height | 4.5" arm width

33" back height | 3" leg

### Fabric Notes

*The juxtaposition of untreated aniline leather sofa body with tonal silk mohair cushions is an elegant way to use two different materials to create a unique, yet balanced design.*
